

---

At Trinity University, we create connections—in research laboratories and fine arts studios, through student involvement and residential life, and through the strength of our Tiger network. Our Pathways curriculum blends the liberal arts and sciences with business and pre-professional programs, enriching our writing, speaking, and problem-solving skills. We answer questions and question answers. We push boundaries and have fun along the way. Located in San Antonio, Texas, we equip 2,400 students through experiential learning, undergraduate research, and international engagement, arming them to be global stewards for change.

**We are confident. We are curious.  
We are catalysts. And we are Tigers.**
